My *.pdf opens outside of the Acquisition slides window

Acquisition uses Internet Explorer to open PDF (*.pdf) files in the slides browser window. If your PDF opens outside of the Acquisition window, follow these instructions to change Internet Explorer's options in order to open PDFs within the Slides window:

Open Internet Explorer, and choose Tools > Manage Add-ons.

Under Add-on Types, select Toolbars and Extensions.

Select All add-ons from the Show menu in the Manage Add-ons dialog box.

Locate the add-on named "Adobe PDF Reader" and highlight it.

Note: If you do not see "Adobe PDF Reader", try the other options on the 'Show' pull down menu.

For example, on some systems "Adobe PDF Reader" may show on the list when you select 'Run Without Permission' from the show menu.
